

AGRANOVICH CONFERENCE

"PHOTONIC, EXCITONIC, SPINTRONIC PROCESSES IN NANOSTRUCTURES"

University of Texas at Dallas on January 22-24, 2004

This exciting conference is in honor of one of the most celebrated and internationally respected condensed matter theoreticians, Professor Vladimir Agranovich, on his 75th birthday.

Because Professor Agranovich is both a great scientist and a man of profound humanity and principle, the invited speakers to this event are some of the major pioneers in the fields of focus for the conference. Indeed, all made seminal contributions to condensed matter physics and nanoscience:

Invited Speakers Include:

- Aleksei Abrikosov of Argonne National Laboratory, Argonne, USA and the 2003 Nobel Laureate in Physics
- Mikhail Alfimov of Russian Foundation of Fundamental Research, Moscow, Russia
- Paul Barbara of The University of Texas at Austin, USA
- Ray Baughman of The University of Texas at Dallas, USA
- Joseph Birman of the City University of New York, USA
- Elias Burstein of the University of Pennsylvania, USA
- Manuel Cardona of the Max Planck Institute for Solid State Research in Stuttgart, Germany
- Esther Conwell of University of Rochester, USA
- John Ferraris of The University of Texas at Dallas, USA
- Steven Forrest of Princeton University, USA
- Alan Heeger of the University of Pennsylvania, USA and the 2000 Nobel Laureate in Chemistry
- Robin M. Hochstrasser of the University of Pennsylvania, USA
- Alex Maradudin of the University of California Irvine, USA
- Alan MacDiarmid of The University of Texas at Dallas, USA and the 2000 Nobel Laureate in Chemistry
- Douglas Mills of the University of California at Irving, USA
- Alex Kaplyanskii of the Ioffe Physics and Technology Institute in St. Petersburg, Russia
- Alex Kavokin of Blaise Pascal University in Clermont-Ferrand, France
- Emmanuel Rashba of MIT and University of Buffalo, USA
- Y. Ron Shen of the University of California, Berkeley, USA
- Z. Valy Vardeny of the University of Utah, USA
- Eli Yablonovitch of University of California Los Angeles, USA

To encourage the younger generation of scientists to attend and interact with “old timers,” there is a minimum charge of only \$50 for graduate students to participate.

For additional details and to register, please visit the event’s website:
